Re: OPT for Mr. Tamal Tanu Biswas

To whom it may concern:

This letter is written to verify that Tamal Tanu Biswas is a full-time student in the Department of Computer Science and Engineering, expecting to complete a Doctorate degree by 1st September 2016. He has completed all the necessary course work for this degree and is now working full-time on his dissertation.

It is my understanding that he is eligible to apply for work authorization and search for a position that is related to his field of study. This practical work experience will complement the students studies and take place while the student is working on his dissertation.

Yours sincerely

Dr. Kenneth W. Regan  
Associate Professor, Dept. of CSE
