To: Marianne Sullivan <mks@buffalo.edu>

Ok. Assuming you will get the synergetic research shrank to 4 pages so please add the editorial page after the funding page.
Also, we will replace the boat page later with students quotes, which will come possibly next day, but don't wait for that.

Aidong,
Deb has asked that I send her everything at once rather than piece meal it. I promised her she would get everything this morning.

This should be put in one page, can go with smaller font.

As I discussed with Marianne, the synergitic research from page 23 to 27 should be condensed to no more than 4 pages.
Right now you have 5 pages on this topic, which is too much. If you can save one page from this part, then you could include the attached editorship page.

Marianne: did you send to Deb all corrections I gave you?

Deb: can we have another round of review by Thursday?
