# Quiz 1 on Monday

note ☆ stop following 105 views

## Quiz 1 on Monday, Oct 8

The first quiz will be from 8-8:10am in class on **Monday, October 8**. We will have a 5 mins break after the quiz and the lecture will start at 8:15am.

We will hand out the quiz paper at 7:55am but you will **NOT** be allowed to open the quiz to see the actual questions till 8am. However, you can use those 5 minutes to go over the instructions and get yourself in the zone.

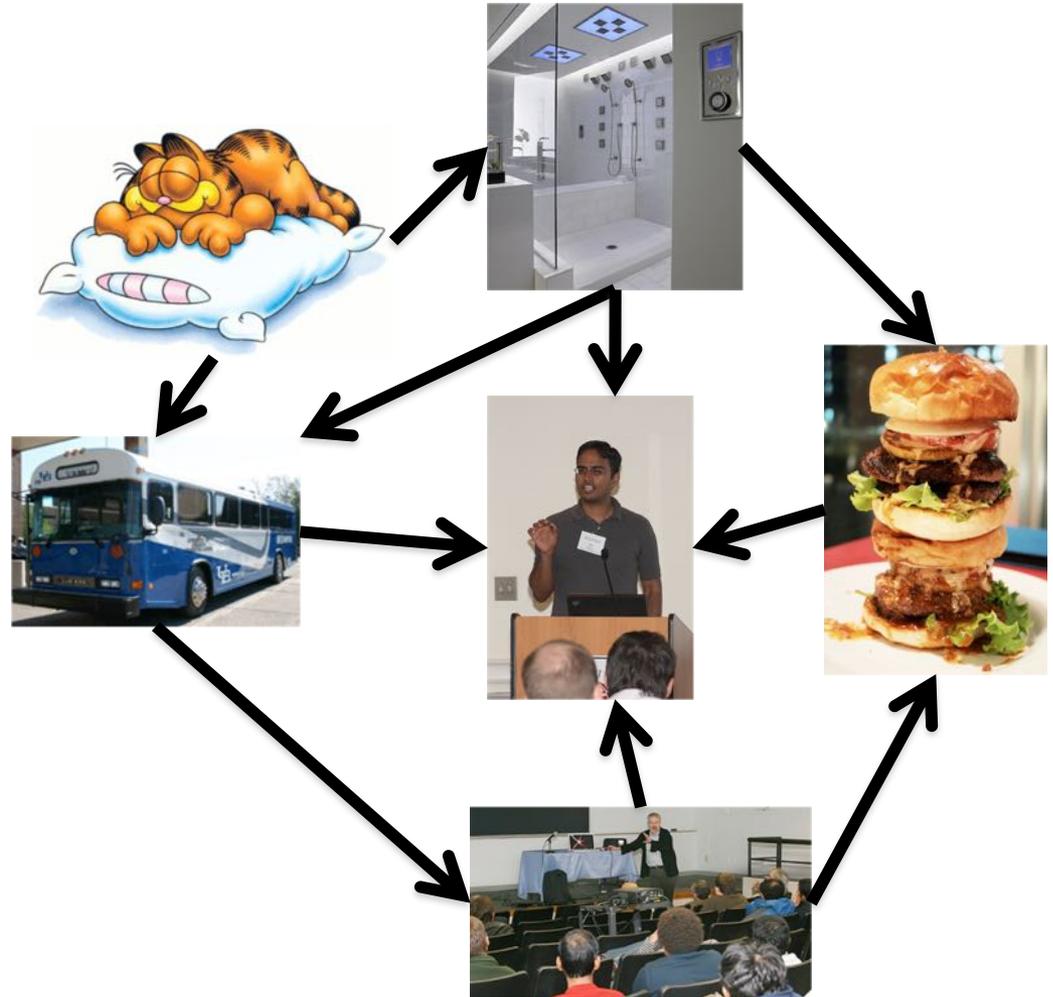

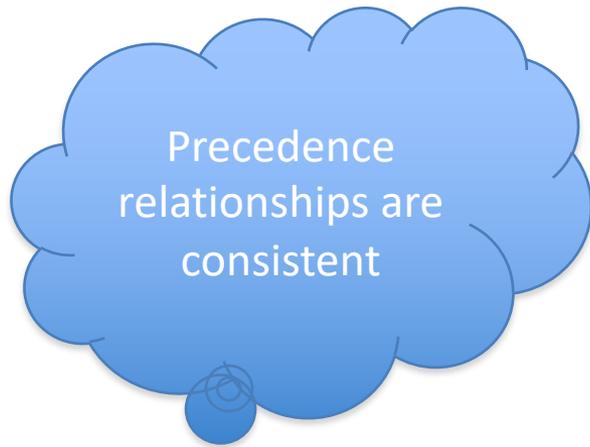

There will be two T/F with justification questions (like those in the sample mid term 1: @45B.)

quiz1

edit good note 0 Updated 2 days ago by Mark Armstrong and Atri Rudra

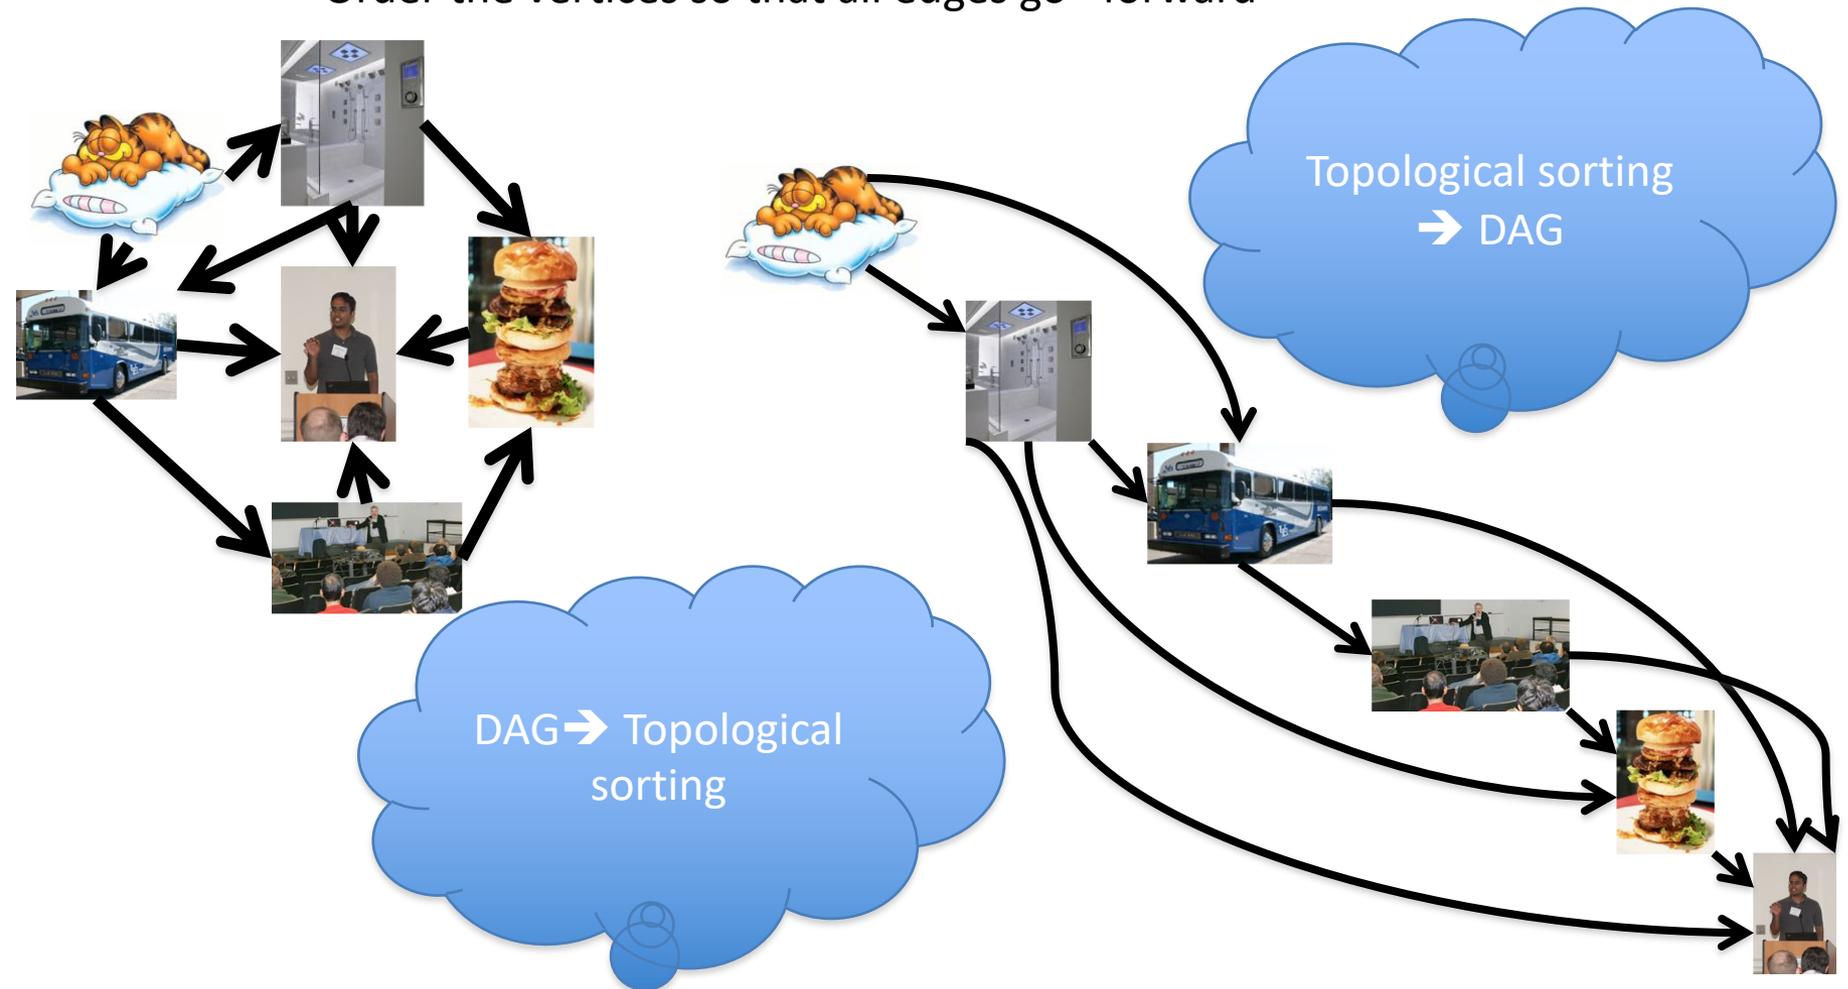

# Directed Acyclic Graph (DAG)

No directed cycles

# Topological Sorting of a DAG

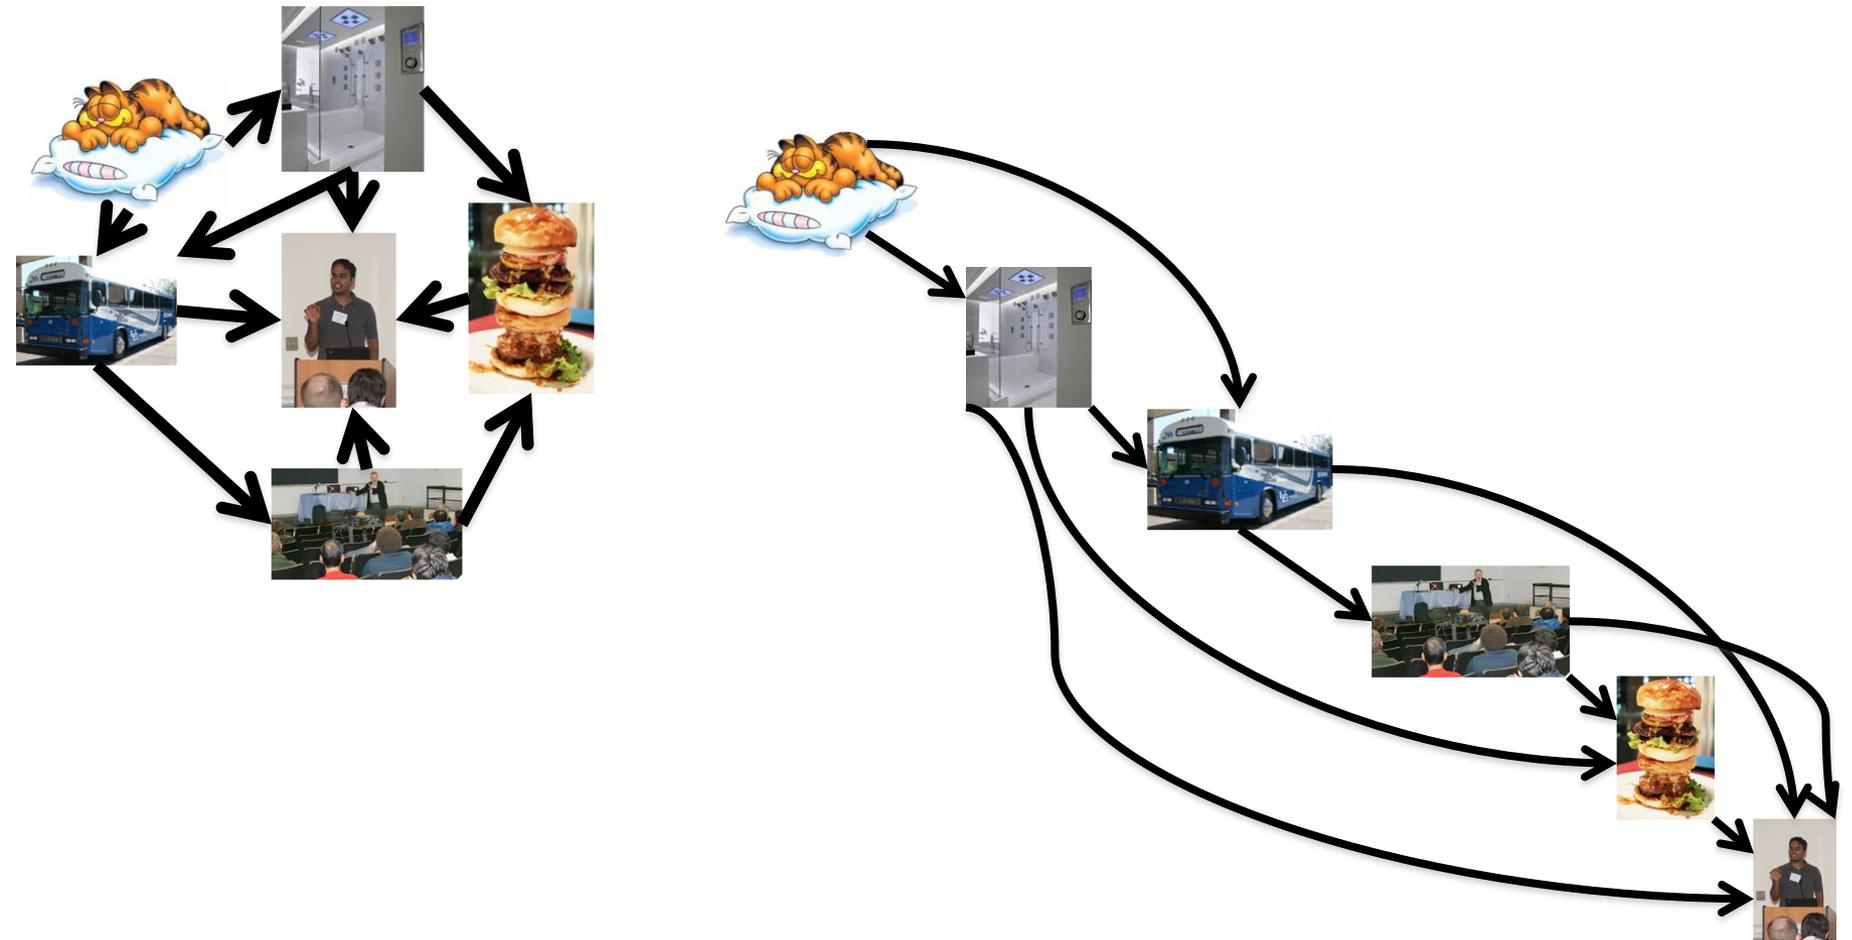

Order the vertices so that all edges go “forward”

# TopOrd( $G=(V,E)$ )

1. If  $|V| = \{u\}$ , return  $u$
2. Let  $w$  be a node with no incoming edges
3. Let  $G'$  be  $G \setminus \{w\}$
4. Return  $w$ ; TopOrd( $G'$ )

# Run of TopOrd algorithm

# Today's agenda

Prove Lemma 3

Run time analysis of TopOrd

# Mid-term material

Everything we have covered so far (essentially Chaps 1-3 except Sec 1.2)

See piazza post on how to prepare for the mid-terms

# Questions?
