

Warner Erickson, 8 years old, son of Mr. and Mrs. Einer Erickson, of Celoron, received a gun shot wound in his back Sunday morning about 11 o'clock and was taken to the Jamestown General hospital where his condition is serious. The bullet penetrated the back and lodged in the chest on the left side. It was stated that Johanna Ottinger, of Celoron, was being permitted to shoot a .22 calibre rifle by her grandfather when young Erickson and a small girl stepped out from behind a building. The girl stepped back but the lad received the shot which had been intended for a bottle the girl was shooting at.
