

## NEWS FROM NEARBY TOWNS

### MISSING YOUTH RETURNS

Robert A. Gogel, Ellicottville Boy, now back at home. Ellicottville, May 14 (Spec.)—Robert A. Gogel, 17 year old son of Mrs. Anna Gogel, who disappeared from home Thursday noon and caused a wide search to be instigated for him, returned to his home here Saturday night.

The youth had started out on foot in his old working clothes following an argument Thursday noon when he left the dinner table in a fit of anger. He failed to return home that night and neighbors started a search for him. The farm was soon hunted from one end to the other but no trace of the boy could be found and his mother became frightened for his safety. The next night the boy showed up at his grandfather's farm, a number of miles from his home and said he had stayed all night in an old barn on the way. He returned home Saturday night.

### FIRE DAMAGES RESIDENCE

Three Persons Compelled to Flee—Blaze in Machine Shop Also. Warren, May 14.—Three persons were compelled to flee a local residence this morning about 3:30 o'clock when fire of undetermined origin was discovered in the home of Mrs. S. W. Whitton, Redwood street.

The daughter of Mrs. Whitton, Miss Eleanor, who has been ill, was taken from the burning building through a second story window by Mrs. Whitton and Miss Zuendell, a guest from Tionesta. Workmen employed nearby aided the women in getting the patient down the ladder. The damage will amount to several thousand dollars.

Apple Drying Plant Burns. Cherry Creek, May 14.—Fire believed to have been of incendiary origin destroyed the dryer plant in Railroad avenue Sunday morning at 2 o'clock. All the machinery in the building was ruined by the flames. The plant was owned by Dehmier Brothers of Pittsford and was valued at \$5,000. It is understood that there was a small insurance. Owing to the small crop of apples last year the plant was not operated.

Funeral of Carl Dittman. The funeral of Carl Dittman, who died Saturday at the home of his daughter, Mrs. Minnie Axelby, in Rock City street, Little Valley, was held this afternoon at 2 o'clock from the Axelby home. Burial was at Little Valley.

Mr. Dittman was born in Germany 80 years ago. He leaves two daughters, Mrs. Axelby and Mrs. Fred Buskist of Little Valley, five grandchildren and five great-grandchildren.

Want Election on Airport. Westfield, May 14.—The Chamber of Commerce held a meeting in the Mason Hall this morning to discuss the advisability of an airport for Westfield. There were about thirty business men present and it was unanimously decided to petition the Village Board to call a special election for the purpose of deciding whether or not the village should issue bonds to purchase land for an airport.

Aged Man has Narrow Escape. Corry, May 14.—Benjamin Orr, aged 92 years, residing at 147 East Main street, had a narrow escape from being killed this morning when he stepped in front of a Pennsylvania train and but for prompt action by Frank Burkhardt, an express employe, in grabbing him off the track, the aged man would have been crushed. He was struck a glancing blow by the train.

Favor no Deer Shooting. Warren, May 14.—An agitation in favor of closing the county entirely to the shooting of the deer, either doe or buck, this fall, has been started by the Warren Chapter of the Isaac Walton League. Petitions have been circulated which are being will be presented to the game commission at Harrisburg closing the season.

Frank M. Casey Injured. Olean, May 14.—Frank M. Casey, 53 years old, a resident of the Rock City road, just south of this city, fell from the dyke system of the Olean creek, in the Boardmanville section, today and the right leg was fractured just below the knee. He was taken to the Olean General Hospital. He is widely known throughout this part, where he has always lived.

## BLIMP HELPS SPEED SEA TRAVEL

The blimp TC-5 lands at sea on deck of vessel. Shipping men say the feat holds promise of faster trans-Atlantic travel.

## WARREN COUNCILMEN VOTE FOR DAYLIGHT SAYING

Warren, May 14.—At an adjourned meeting of the Borough Council this evening the action of last week opposing daylight saving was rescinded and a resolution providing for daylight saving in the borough was passed, the vote being: For, 9; against, 5; not voting, 2, and not present, 2.

Earle McDonald, former borough solicitor, who represents a group of persons opposed to daylight saving, was present. He made no comment except to ask for a copy of the resolution and the minutes of the meeting. It is likely that the matter will be taken to court. It has been pointed out by those opposing the idea of daylight saving that an act of the Legislature makes it unlawful for any community to change the time established by the commonwealth.

## BENEFITS IN ELlicOTTVILLE FOR ROCKY CREST SANATORIUM

Ellicottville, May 14.—Two benefits were held in this village for the benefit of the Rocky Crest Sanatorium at Olean, in keeping with National Hospital Day, Saturday. A party was held at the home of Mrs. A. J. Frank with 52 in attendance and 26 dollars and fifty cents was realized for the county institution. A sale of baked goods by the Ellicottville Nursing Committee, held at Smallman's drug store, also netted a tidy sum for the sanatorium. A number from here visited Rocky Crest Saturday and inspected the institution.

## CRIPPLE SEEKS DAMAGES

Boy of 8 lamed when accidentally shot in back.

Mayville, May 14.—Pronounced permanently crippled by Jamestown surgeons and destined to spend the rest of his life either in bed or a wheel chair, Warner Erickson, 8 years old, of Celoron, today came into Supreme Court seeking monetary damages for pain and suffering resulting from a bullet wound in his back that severed the spinal cord and left him without control of his legs.

The defendant is Fred Hunt, 63, of Celoron, whose .22 calibre rifle, in the hands of a 14-year-old girl, discharged the bullet that on July 3d, last, accidentally entered the back and spinal column of the Erickson boy and made him forever a cripple.

## WOULD CLOSE VILLAGE LOCKUP

Inspector says Franklinville Jail far below Average.

Albany, May 14. (Special)—Unless the village of Franklinville takes measures to provide a new lockup, the State Prison Commission is disposed to start proceedings for the purpose of closing the present one. It was inspected April 26th by Clifford M. Young, chief inspector of the Commission, which approved his report, to this effect:

This lockup is located in a room in the rear of the fire house, a two-story brick building with a wooden interior. The police office is adjacent to the cell room and is reached from the front of the building. There is also a separate entrance directly into the lockup from the side of the building. An officer is on duty during the night until 4 A. M.

There are two steel cells, 4x7x7 feet, of light barred construction, each furnished with a steel bunk with waterproof mattress and blankets, in good condition. There is an ordinary toilet with wooden seat and an iron sink with faucet in the corridor; no toilet facilities are in the cells. Electric light is furnished and heat is obtained from a coal stove in the office.

Since the last inspection the locks on the inside of the outer door have been removed as recommended.

At time of inspection the lockup was dirty, showing lack of care. It was said no one is regularly employed to keep it clean and no officer is on duty constantly when prisoners are detained, although the lockup is a fire trap.

I was unable to secure a copy of the record of arrests, but was informed that the lockup is used to a considerable extent for the detention of arrested persons and the accommodation of lodgers who are allowed to use the cells.

Franklinville has a population of nearly 2,800 and would seem to be in need of a more modern and adequate public building than the present fire station. This lockup is far below the average throughout the State, and in view of the improvements which have been made elsewhere it would seem that some action should be taken here to secure a modern sanitary and fire-proof lockup. If suitable action is not taken before July 1, 1928, it is recommended that the officials of this village be cited to show cause why the lockup should not be closed.

Daylight Saving vote deferred. Falconer, May 14.—Daylight saving was taken up and discussed at the meeting of the Village Board tonight but no action was taken on it. It was stated that the village will probably follow Jamestown in adopting the change on June 3d.

## HEALTH LETTER

By Dr. R. M. Atwater, Acting County Health Officer.

### "THE BEST SPRING TONIC"

Those who are old enough to recall the fashion of taking each spring sulphur and molasses—or treacle—have lived to see this idea of a spring tonic exploited to a point that makes spring the open season for "patent" medicine sales. It will interest many to know the name of the most dependable of these tonics.

There is no fear of contradiction in saying to city dwellers that an hour each day spent in making a garden is nature's best tonic. The body which has been deprived of sunshine and exercise in the fresh air for the winter months responds to these with a glow that in itself is ample reward. And the garden provides all grades of exercise, from the vigorous to the simple, so that each may suit his own needs.

To those whose life is in the country and to whom the outdoors is home, a patch of garden may not be quite so necessary. Farm families, however, need the same outdoor exercise and sunshine, and this applies to the mothers and smaller children who do not share in the wealth of the out of doors available to them. And the vegetables from the garden are the best insurance for health later on.

Science has proven that sunshine profoundly affects the body in many ways. It increases resistance to several diseases, notably rickets in children; it increases the supply of hemoglobin, the red color in the blood; it promotes the absorption of the bone-building elements from foods; it promotes growth, provides a smooth, healthy tan, supplies the essential vitamins, A and D, destroys most harmful bacteria in just a few minutes exposure, stimulates important glands and makes for greater vitality through a general tonic and energizing effect on the system.

WILL YOU GET YOUR TONIC THIS SPRING?

Have the Republican-Press delivered to your home every evening. Call 592-J.
